**Activity (Event) Report**

**Project/Activity/Event Name:** Workshop on Research Methodology 2018

**Venue/Place:** - Dr. PDMMC, Amravati **Department/Section:-** Community Medicine

**Date of event/activity/project:** 19<sup>th</sup> to 21<sup>st</sup> April 2018 **Time:** - 9 am -5 pm

**Objectives:**

- 1) To introduce concepts of research study planning and conduction
- 2) Hands-on exercise on application of biostatistics in research
- 3) Introducing protocol in research publication and critical review of published research

**Importance/Relevance/Introduction:** Workshop focuses on teaching research activities from planning, conduction till writing protocol and publishing research project.

**Brief description of the activity carried out:** Workshop covered lectures on conceptualization of research study and bio-statistical consideration in designing research study.

**Recommendations:** Introducing concepts of research methodology and study conduction planning with bio-statistical consideration is much needed and must be an ongoing activity.

## Activity Report

**Activity/ Event Name:** Training of the Health care Workers on RTPCR testing

**Date and Venue/Place:** 9/06/2021

Molecular Diagnostic Laboratory Microbiology Department

**Department/Section:** Department of Microbiology, / HIC Committee  
Dr.PDMMC, Amravati

### **Objectives:**

1. To train the health care workers for RTPCR testing of SARSCoV-2 RNA detection
2. To educate about the procedures performed and also the infection prevention practices.

### **Importance/Relevance/introduction:**

During the period of Corona pandemic, the RTPCR testing laboratory was established and was accredited by NABL. It was important to train the technicians, attendants, sweepers for the procedures which are assigned to be performed by different category of Health care workers. It is the continuous process to update knowledge therefore trainings, workshops are scheduled for laboratory workers every year.

### **Brief description of the activity carried out:**

Training program for the laboratory workers, technicians, attendants, sweepers was planned and conducted on 9/06/2021. The topic covered Automated RNA extraction technique for RTPCR testing of SARS CoV-2

Dr. M.M. Deshmukh, Associate professor, Microbiology Department conducted the training program, There were (10) ten participants.

## Activity Report

**Activity/ Event Name:** Training of the Health care Workers on RTPCR testing

**Date and Venue/Place** 23/06/2021

Molecular Diagnostic Laboratory Microbiology Department

**Department/Section:** Department of Microbiology, / HIC Committee  
Dr.PDMMC, Amravati

### **Objectives:**

1. To train the health care workers for RTPCR testing of SARSCoV-2 RNA detection
2. To educate about the procedures performed and also the infection prevention practices.

### **Importance/Relevance/introduction:**

During the period of Corona pandemic, the RTPCR testing laboratory was established and was accredited by NABL. It was important to train the technicians, attendants, sweepers for the procedures which are assigned to be performed by different category of Health care workers. It is the continuous process to update knowledge therefore trainings, workshops are scheduled for laboratory workers every year.

### **Brief description of the activity carried out:**

Training program for the laboratory workers, technicians, attendants, sweepers was planned and conducted on 23/06/2021. The topic covered BioMedical waste management in Molecular laboratory.

Dr. M.M. Deshmukh, Associate professor, Microbiology Department conducted the training program, There were (10) ten participants.

### Activity Report

**Activity/ Event Name:** Training of the Health care Workers on RTPCR testing

**Date and Venue/Place** 12/03/2021

Molecular Diagnostic Laboratory Microbiology Department

**Department/Section:** Department of Microbiology, / HIC Committee  
 Dr.PDMMC, Amravati

**Objectives:**

1. To train the health care workers for RTPCR testing of SARSCoV-2 RNA detection
2. To educate about the procedures performed and also the infection prevention practices.

**Importance/Relevance/introduction:**

During the period of Corona pandemic , the RTPCR testing laboratory was established and was accredited by NABL . It was important to train the technicians , attendants, sweepers for the procedures which are assigned to be performed by different category of Health care workers. It is the continuous process to update knowledge therefore trainings, workshpsare scheduled for laboratory workers every year.

**Brief description of the activity carried out:**

Training program for the laboratory workers, technicians, attendants, sweepers was planned and conducted on 12/03/2021 . The topic covered Kit reagents & Master mix preparation in Molecular laboratory.

Dr M.M. Deshmukh, Associate professor , Microbiology Department conducted the training program ,There were (10) ten participants .

### Activity Report

**Activity/ Event Name:** Training of the Health care Workers on RTPCR testing

**Date and Venue/Place** 29/09/2020

Molecular Diagnostic Laboratory Microbiology Department

**Department/Section:** Department of Microbiology, / HIC Committee  
 Dr.PDMMC, Amravati

**Objectives:**

1. To train the health care workers for RTPCR testing of SARSCoV-2 RNA detection
2. To educate about the procedures performed and also the infection prevention practices.

**Importance/Relevance/introduction:**

During the period of Corona pandemic , the RTPCR testing laboratory was established and was accredited by NABL . It was important to train the technicians , attendants, sweepers for the procedures which are assigned to be performed by different category of Health care workers. It is the continuous process to update knowledge therefore trainings, workshops are scheduled for laboratory workers every year.

**Brief description of the activity carried out:**

Training program for the laboratory workers, technicians, attendants, sweepers was planned and conducted on 29/09/2020 . The topic covered Automated RNA extraction in Molecular laboratory,

Dr A.P. Nikam Assistant Professor , Microbiology Department conducted the training program ,There were (8) eight participants .
