**National Medical Commission**  
**(Undergraduate Medical Education Board)**

No. U.15024/01/2022-UGMEB/

Dated the 9<sup>th</sup> May, 2023

**CIRCULAR**

**Subject: Clarification regarding conduct of internship for FMGs – reg.**

National Medical Commission is in receipt of representations/queries from various stakeholders including the State Medical Councils seeking clarifications on different issues regarding mode and method of conducting Medical Internship for Foreign Medical Graduates in India.

2. The issue has been carefully deliberated in the Commission and in consultation with Ministry of Health & Family Welfare through virtual meetings and it has been decided to consolidate all the guidelines/instructions issued by the Commission till date.

3. Further, the clarification in respect of the applicability of NMC's Notification dated 28.07.2022 regarding two years internship by FMGs, denial of internship by State Medical Councils on the basis of Domicile and completion of internship by FMGs in parts, is also required to be given in order to raise awareness among the various stakeholders and also the public at large. Thus, the following is clarified:

**Important Provisions under CRMI Regulations 2021 for FMGs**

- (i) Foreign medical graduates are required to undergo supervised internship in India for a minimum term of twelve months, after applying for the same to the Commission, as per the clause 4(c) of Foreign Medical Graduate Licentiate (FMGL) Regulations 2021.
- (ii) Foreign Medical Graduates who are required to do Internship in India, shall do so only in medical colleges or institutions approved for providing CRMI to Indian Medical Graduates and the allocation of medical college to these FMGs will be done by the concerned State Medical Council.
- (iii) The Internship shall be completed within two years of passing the final MBBS or Foreign Medical Graduate Examination (FMGE) or NExT Step-1 examination, whenever in force.

Contd.....2/-

- (iv) Foreign Medical Graduates may be posted to different medical colleges or institutions through a counseling or seat allocation process based on the merit;
- (v) The college or institution and its affiliated hospitals and Community Health Centres shall be recognized by the Commission for conducting the CRMI programme

**Validation of Online study by Commission :**

- (vi) The Commission has not approved/validated the medical qualifications (both theoretical & practical) through online mode only. However, during the Covid-19 pandemic, online classes conducted by Medical colleges/institutions in India were made valid, to be supplemented by practical and clinical training as per current curriculum in all MBBS subjects in the colleges/institutions and affiliated hospitals.
- (vii) Online study of medical qualification (theory alongwith practical) is not valid mode of study.

**Applicability of NMC Public Notice dated 28.07.2022 on FMGs :**

- (viii) In pursuance of order dated 29.04.2022 passed by the Hon'ble Supreme Court of India in SLP No. 2536-37 of 2022, NMC issued public notice dated 28.7.2022 informing that Indian students who were in the last year of their undergraduate medicine course but due to COVID-19, Russia-Ukraine war etc. had to leave their foreign medical institute and return to India and have subsequently completed their studies as also have been granted certificate of completion of course/degree by their respective institute on or before 30th June, 2022 shall be permitted to appear in Foreign Medical Graduate Examination.
- (ix) The provision of two years' internship, referred in Public Notice dated 28.07.2022, is applicable only to those Foreign Medical Graduates who were in their last year of their study of medical qualification and returned to India due to COVID-19 or Russia-Ukraine War etc. After successful completion of the medical qualification, such FMGs are required to qualify FMG Examination and subsequently undergo Compulsory Rotating Medical Internship (CRMI) for a period of two years (schedule of 12 months to be repeated) in hospital attached to medical college only.

- (x) All FMGs (Except covered in point (viii) and (ix) above) are required to complete their study from respective University/Institutes in offline mode or to supplement their online theory subjects/classes by offline practical and clinical training and thereafter shall acquire a valid medical qualification which is registrable in that country where it is being acquired. After qualifying FMG Examination, FMGs shall undergo Compulsory Rotating Medical Internship (CRMI) for a period of one year in accordance with CRMI Regulations 2021.

**Requirement of Domicile by FMGs for internship :**

- (xi) State Medical Councils shall not deny allotment of medical colleges for internship to FMGs on the basis of their domicile. An FMG can complete his/her internship from a medical college in any State/UT, if found eligible otherwise.

**Completion of Internship by FMGs in parts at hospitals/medical colleges :**

- (xii) In case, an FMG has already completed first one year of his/her internship in any medical college in India, he/she shall be free to complete remaining part of his/her internship(2<sup>nd</sup> year of internship) from another medical college/State/UT, as per the availability of seats for conducting internship for FMGs.

**Payment of stipend to FMGs :**

- (xiii) National Medical Commission vide Circular dated 19.05.2022, requested to all Directorates of Medical Education & State Medical Councils to ensure that no internship fee is charged by the medical colleges/institutes from these interns Indian and Foreign Medical Graduates and stipend including other facilities is being provided to FMGs as equivalent to Indian Medical Graduates in the States/UTs.
- (xiv) However, considering the requests/representations from various State Governments/UTs/medical colleges wherein it was intimated that there has been no budgetary provision in their allocation of annual budget to provide stipend to Foreign Medical Graduates, the Commission vide circular dated 19.10.2022 has already clarified that the amount of stipend to be paid to the interns is to be decided/fixed by the appropriate authority applicable to the Institution/University or State. The implementation of these guidelines/instructions/advisory is solely at the discretion of the concerned State authorities under which the medical college/institute is located.

- (xv) However, stipend is payable to FMG interns only during 2<sup>nd</sup> year of internship, as one year is in lieu of the missed clinical training during MBBS course in Foreign Medical College/Institute.

**One-time Relaxation to Foreign Medical Graduates to complete Internship :**

- (xvi) A number of requests/queries received from different State Medical Councils regarding non-availability of seats for FMGs to start their internships at their State/UT especially due to the implementation of the two years' internship for FMGs. Their request has been considered in National Medical Commission favourably in the Coordination Meeting of Chairman, NMC with Presidents and Members of the four Boards of NMC held on 2nd May 2023.
- (xvii) After careful consideration of the situation and issue faced by the FMGs in order to explore seats to complete their internship, it is decided by UGMEB to validate the list of Recognized Non-teaching Hospitals for Compulsory Rotating Medical Internship issued by the erstwhile Medical Council of India, for a period of one year from the issue of this circular i.e. upto May 2024, for conduct of internship for Foreign Medical Graduates only. List of Recognized Non-teaching Hospitals for Compulsory Rotating Medical Internship issued by the erstwhile Medical Council of India is at **Annexure**. This relaxation is granted only as a one-time measure.
- (xviii) The allotment of FMGs in these Non-teaching Hospitals shall also be done only through concerned State Medical Councils.

4. All State Medical Councils and Directorates of Medical Education are requested to kindly ensure the implementation of the above guidelines/instructions while allocating medical colleges to Foreign Medical Graduates.

**MEMORANDUM OF  
UNDERSTANDING(MoU)**

Between

**Technominds IP Solutions**

And

**Dr. Panjabrao Deshmukh Memorial  
Medical College, Amravati.**

9<sup>th</sup> March, 2023

This Memorandum of Understanding ("MOU") is entered into on the 9<sup>th</sup> day of March 2023 ("Effective") by and between Technominds IP Solutions, a company registered under the MSME (Udyam) and having its corporate office at Bramhanpuri, Main Road, Warud, Amravati-444906, India and Dr. Panjabrao Deshmukh Memorial Medical College, Amravati.

WHEREAS, the Dr. Panjabrao Deshmukh Memorial Medical College, run by ShriShivaji Education Society Amravati is a Medical college and hospital with Graduate, Post graduate and Doctoral courses in various subjects affiliated to Maharashtra University of Health Sciences, Nashik. Dr. Panjabrao Deshmukh Memorial Medical College has well developed and equipped hospital with all investigative and medical treatment facilities including intensive care and emergency services.

Now this MOU aims to capture the understanding reached between Technominds IP Solutions and Dr. Panjabrao Deshmukh Memorial Medical College, Amravati regarding each other's roles and responsibilities.

#### UNDERSTANDING

Both the parties under this MOU have agreed to collaborate with each other as below by providing students of colleges with Technominds IP Solutions for corporate career readiness:

The purpose of this memorandum of understanding is to describe a general arrangement for the management of intellectual property that might arise out of applied research and innovation projects undertake through funding provided by the College and Community Innovation Program.

Intellectual property Right (IPR) is a term used for various legal entitlements which attach to certain types of information, ideas, or other intangibles in their expressed form. The holder of this legal entitlement is generally entitled to exercise various exclusive rights in relation to the subject matter of the Intellectual Property. The term intellectual property reflects the idea that this subject matter is the product of the mind or the intellect, and that Intellectual Property rights may be protected at law in the same way as any other form of property. Intellectual property laws vary from jurisdiction to jurisdiction, such that the acquisition, registration or enforcement of IP rights must be pursued or obtained separately in each territory of interest. Intellectual property rights (IPR) can be defined as the rights given to people over the creation of their minds. They usually give the creator an exclusive right over the use of his/her creations for a certain period of time.

#### Intellectual Property

Intellectual property is an intangible creation of the human mind, usually expressed or translated into a tangible form that is assigned certain rights of property. Examples of intellectual property include an author's copyright on a book or article, a distinctive logo design representing a soft drink company and its products, unique design elements of a web site, or a patent on the process to manufacture chewing gum.

#### Intellectual Property Rights

Intellectual property rights (IPR) can be defined as the rights given to people over the creation of their minds. They usually give the creator an exclusive right over the use of his/her creations for a certain period of time. Intellectual property (IP) refers to creations of the mind: inventions, literary and artistic works, and symbols, names, images, and designs used in commerce.

#### OBJECTIVE

This MOU is the cornerstone of innovation and creativity for academia. It provides structure, predictability,

and a framework for talented minds to do what they do best: create and innovate.

The overall aim of Model Guidelines on Implementation of IPR Policy for Academic Institutions is to nurture the spirit of innovation and translate these into products, processes, and services for commercial exploitation in wider public good. The aim is to contribute in transforming industry and society, by delivering research-led education, promoting innovation, collaboration and fostering human values.

These model guidelines have the following objectives:

- i) To provide a framework to foster innovation and creativity in the areas of technology, sciences, and humanities by nurturing new ideas and research, in an ethical environment.
- ii) To protect intellectual property (IP) rights generated by faculty/ personnel, students, and staff of the academic institution, by translating their creative and innovative work into IP rights.
- iii) To lay down an efficient, fair, and transparent administrative process for ownership control and assignment of IP rights and sharing of revenues generated by IP, created and owned by the academic institution. Additionally, in cases of government funded research, the inventor(s)/ organization(s) should disclose their IP filings to the Government Agency(s) that have funded their research.
- iv) To promote more collaborations between academia and industry through better clarity on IP ownership and IP licensing.
- v) To create a mechanism for knowledge generation and its commercial exploitation. The purpose of IP commercialization is also to augment the financial self-sustenance goals of the academic institution & its labs and to reward faculty and researchers.
- vi) To establish an IP cell for supporting all innovation, creativity and IPR related endeavors of students, research scholars and faculty members.

## **CONFIDENTIALITY**
